

INDEX TO VOLUME 46—METAL FINISHING

JANUARY-DECEMBER, 1948

(Compiled by Mr. Marvin Rubinstein)

With this issue, *Metal Finishing* is inaugurating a new type of yearly index. This index, in which all material which has been published in the monthly editions during 1948 has been listed according to subject matter, with cross references wherever required, will enable the reader to locate all the material on a given subject rapidly and conveniently. We will welcome any suggestions or comments on this new type index.

Early next year we are planning to publish a similar comprehensive index covering all periodicals in the English language that have contained articles on electroplating and allied subjects during the past 10 years.

This new type of index includes not only featured technical articles, but also items that appeared as New Developments, Patents, Shop Problems, Manufacturers Literature, and New Books. Following each listing will be found a letter, indicating the manner in which the reference was published, as follows:

(S)—Shop Problem

(M)—Manufacturers Literature

(R)—Recent Development

(B)—New Book

(P)—Patent

The numbers appearing in the right hand column refer to the month and page numbers; 4-57 means April issue, page 57, etc.

Any references not followed by a letter in parentheses are feature articles.

ACID DIPPING—See Bright Dipping and also Pickling.

AGITATION

Rod Agitators for Plating Tanks (S)..... 4- 84
Rinse Tank Agitator and Siphon Breaker (M) 7- 82
Rod Agitators for Electroplating (M)..... 7- 96
Apparatus for Cleaning Articles and the Like by Liquid Dip Agitation (P)..... 10- 94
Electroplating Apparatus (P)..... 12- 80

ALLOYS

Journal of Electrodepositors Technical Society Vol. 21, 1945-46 (B)..... 2-107-108
Electrodeposition of Iron-Tungsten Alloys (P) 3- 86
Electrodeposition of Nickel-Tungsten Alloys (P)..... 3- 88
Low Temperature Fusible Alloys (M)..... 5- 99
Plating and Airlines Efficiency (Lead-Iridium Plating)..... 6- 91
Bright Alloy Plating (P)..... 6-114, 116
Iridium-Gold Article and Method (P)..... 8- 76
Method of Improving the Corrosion Resistance of Chromium Alloys (P)..... 10- 92
Terne Electroplating Baths (P)..... 12- 80

ALUMINUM—See also Anodizing

Electroplating Silver on Aluminum and Its Alloys (P)..... 1- 90
Journal of Electrodepositors Technical Society, Vol. 21, 1945-46 (B)..... 2-107-108
Silver Plating on Aluminum (S)..... 3- 84
Method of Cleaning Aluminum (P)..... 4- 85
Process and Means for Improving the Appearance of Aluminum Coatings (P)..... 5- 82
Electroplating on Aluminum and Its Alloys (B)..... 5-112
Aluminum and Aluminum Alloys in the Food Industry (B)..... 5-112
Cleaning Aluminum Parts for Spot Welding and Painting (M)..... 6-151
Aluminum Cleaning Methods..... 10- 75- 80, 125
Brightening of Aluminum (R)..... 10-102-103
New Techniques for the Finishing of Aluminum and Its Alloys (R)..... 10-105-106
Producing Aluminum Coated Iron or Steel (P)..... 10-108
Electrodeposition of Aluminum (P)..... 11- 86

ANALYSIS—See also Testing.

The Cyanide Content..... 1- 61- 62, 67
Laboratory Tests and Equipment—Part I. 2- 50- 55
Conclusion..... 3- 76- 83
Standard Solutions (S)..... 2- 79
Standard Solutions for Test Work (S)..... 4- 83- 84
Industrial Chemicals (M)..... 6-148
Stainless Steel Chemical Balance (R)..... 8- 87
Determination of p-Toluenesulfonamide in Nickel Plating Baths..... 6- 68- 69
Flame Spectrophotometers for Simplified Analytical Procedure (R)..... 9- 81
Analysis of Cleaners (S)..... 10- 90
New Plater's Computer (R)..... 10-100
Analytical Methods in Plating Baths..... 11- 68- 75

ANODES

Lead Anodes Equipped with Cast Copper Hook (R)..... 2- 87
Anodes—Part I, 3- 68- 75; Part II, 4- 61- 66, 75; Conclusion..... 5- 74- 79
Anodes for Brass Plating (S)..... 3- 84
Zinc Anodes (R)..... 3- 90
Nickel Anodes (S)..... 4- 83
Electrode for Use in Electrolytic Cells (P)..... 4- 86
New Bulletin on 71-Point Lead Anodes (M) 4-108
Platinum Sheet Electrode (P)..... 5- 82, 84
Nylon Anode Bags and Filter Cloths (R)..... 5- 86
New Zinc Plating Anode (R)..... 5- 90
Wagner Issues Folder on Zinc Anodes (M) 5- 99
Auxiliary Anodes for Chrome Plating (S)..... 6-112
Nickel Plating With Insoluble Anodes (S) 7- 74
Lead-Antimony Anodes for Chrome Plating (S)..... 8- 74
Designing Auxiliary Anodes for Chrome Plating (S)..... 9- 75
Lead Anode Improved by New Alloy (R)..... 10- 95
Anode Areas in Silver Plating (S)..... 11- 82

ANODIZING

Chemical Surface Treatments for Magnesium (Data Sheet)..... 1- 91
Anodic Reactions of Aluminum and Its Alloys in Sulfuric and Oxalic Acid Electrolytes. 2- 65- 70
Journal of Electrodepositors Technical Society, Vol. 21, 1945-46 (B)..... 2-107-108
Black Finish on Aluminum (S)..... 4- 84
Measurement of Thickness of Oxide Coatings on Aluminum Alloys..... 5- 69- 73
Method of Regenerating Anodizing Baths (P) 7- 78
The Influence of Sealing Treatments on the Protective Value of Anodized Coatings. 9- 70- 74
New Techniques for the Finishing of Aluminum and Its Alloys (R)..... 10-105-106
Anodizing (Data Sheet)..... 12- 83

AUTOMATIC EQUIPMENT

Finishing Small Electric Appliances..... 1- 78 80
Continuous Wire and Strip Electroprocessing Machine (P)..... 2- 82
Journal of Electrodepositors Technical Society, Vol. 21, 1945-46 (B)..... 2-107-108
Apparatus for Electroplating the Inside of Bearing Shells and the Like (P)..... 3- 86
Belke Bulletin on Plating Conveyors (M)..... 3-110
Electrolytic Production of Thin Metal Foil (P)..... 4- 85
Wiper for Use in Metal Plating Apparatus (P)..... 6-114, 116
Surface Finishing Automobile Moldings..... 7- 60- 61
Plating Sheet Metal (P)..... 12- 80
Apparatus for Electroplating Rings and Discs (P)..... 7- 76
Preparation of Silver Foil (P)..... 7- 84
Conductor Roll (P)..... 8- 78
New Plating Equipment Bulletin by Meaker (M)..... 8- 98
Hydraulic Polisher and Glazing Machine (R) 9- 82
Rotary Automatic Polisher (R)..... 10- 96- 97
Apparatus for Producing Coated Wire by Continuous Process (P)..... 11- 84
Automatic Abrasive Belt Polisher and Grinder for Flat Stock (R)..... 11- 88

BARREL PLATING

Plating Barrel (R)..... 2- 91- 92
12 Volt Rectifier for Barrel Plating (R)..... 2- 96- 97
New Plating Barrel Catalogue (M)..... 2-108-109
Converting from Zinc to Cadmium (S)..... 5- 80
Quadruple Plating Barrel (R)..... 5- 91
Annual Proceedings of the A. E. S. (B)..... 6-139
Barrel Nickel Plating (S)..... 7- 74
Surface Areas of Standard Machine Screws (Data Sheet)..... 9- 77
Chromium Plating Barrel (R)..... 9- 85- 86
Metal Plating on Non-Conductors..... 10- 65- 66
Determining Barrel Plating Costs..... 10- 81- 84

BLISTERING—See Peeling.

BRASS & COPPER ALLOYS

1947 Progress in Metal Finishing..... 1- 56
Imitation Gold Plating (S)..... 2- 79
Anodes—Part I..... 3- 74- 75
Anodes for Brass Plating (S)..... 3- 84
Annual Proceedings of the A.E.S. (B)..... 6-139
Brass Plated Cast Iron (S)..... 8- 74
Electropolishing of Brass..... 12- 72

BRIGHT DIPPING

Bright Dips for Cadmium Plate (S)..... 3- 84
Solution for Smoothing Zinc Surfaces (P)..... 3- 86
Process of Bright Dipping (P)..... 5- 82
Chemical Polishing of Metal Surfaces (P)..... 10-100

BRIGHTENERS

Fluid Mechanics—Part II..... 1- 67
p-Toluenesulfonamide in Nickel Baths..... 9- 68, 69

BRUSH PLATING

Portable Silver Plater (R)..... 8- 86

BUFFING—See Polishing.

BURNISHING—See Tumbling.

CADMIUM PLATING

Anodes—Part II..... 4- 63- 64
Plating Wire Fish Traps for Corrosion Resistance (S)..... 5- 80
Converting from Zinc to Cadmium (S)..... 5- 80

CHEMISTRY—See Electrochemistry.

CHROME SURFACE TREATMENTS

Chemical Surface Treatments for Magnesium (Data Sheet)..... 1- 91
Chromated Protein Films Inhibit Corrosion..... 6-110
Treated Steel Sheet and Process (P)..... 6-116
Journal of the Electrochemical Society, No. 3, Vol. 93 (B)..... 6-137
Conversion Coatings for Zinc and Aluminum (M)..... 6-148
Coating on Metals (P)..... 7- 76, 78
Chromising Steel Surfaces..... 8- 70- 72

Protection of Cupriferous Surfaces (P)	11-84
Anti-Tarnish Protection (M)	11-106-107
Tin Plate Treatment (P)	12-80

CHROMIUM PLATING

Combination Grey and Bright Finish (S)	1-87
Laboratory Tests and Equipment	2-51-52
Chrome Plating Deep Articles (S)	2-79
Method of Electroplating to Produce Fissure Network Chromium Plating (P)	2-80, 82
Lead Anodes Equipped with Cast Copper Hook (R)	2-87
Chrome Plating Cast Iron (S)	3-85
"Discolored Chromium Plate" Letter	3-119
Anodes—Part II	4-65
Chrome Plated Wear Resisting Surface (P)	4-85
New Bulletin on 71-Point Lead Anodes (M)	4-108
High Temperature Tarnish Resistant Finish (S)	5-80-81
Hard Finish for Tubular Parts (S)	6-111
Plating for Heat Reflectors (S)	6-111
Auxiliary Anodes for Chrome Plating (S)	6-112
Journal of the Electrochemical Society, No. 3, Vol. 93 (B)	6-137
Annual Proceedings of the A.E.S. (B)	6-139
Industrial Chrome Plating (M)	6-148
Finishes for Water Cooler Tops (S)	8-74
Lead-Antimony Anodes for Chrome Plating (S)	8-74
Designing Auxiliary Anodes for Chrome Plating (S)	9-75
Poor Adherence of Chrome over Nickel (S)	9-75
Chromium Plating Barrel (R)	9-85-86
Bulletin on Chrome Plating (M)	9-104
Lead Anode Improved by New Alloy (R)	10-95
Plating in the Recording Industry	11-58-59

CLEANING—See also Degreasing.

Fluid Mechanics—Part II	1-63, 64
Fabricating and Finishing Stainless Steel—Part II	1-74, 77
Part IV	5-67-68
Hard Chrome on Stainless Steel (S)	1-86
Spray Nozzle (P)	1-88
Acid-Proof Brush (R)	2-87-88
Metal Cleaning Solvents (M)	2-109-110
Cleaning Surfaces by Non-Erosive Blasting	3-54, 56, 61
Drum Type Washing Machines (R)	3-97
A.S.T.M. Standards on Soaps and other Detergents (B)	3-118
Cleaners without Cyanide (S)	4-83
Refinishing Old Silverware (S)	4-84
Method of Cleaning Aluminum (P)	4-85
Cleaning Kovar Metal-Glass Assemblies (S)	5-80
Abrasive Cleaning System (P)	5-84
New Emulsifiable Solvent Cleaner (R)	5-92
"Chrome Plating Cast Iron" Letter	5-113
Electrolytic Pickling	6-95-102
Metal Cleaning (Data Sheet)	6-113
Method of Anodic Cleaning (P)	6-116
New Acid Agent for Bright Nickel Plating (R)	6-117
Emulsion Cleaner (R)	6-125
Parts Cleaning Machine (M)	6-150
Cleaning Aluminum Parts for Spot Welding and Painting (M)	6-151
"Preventing Rust on Silver Plated Steel Knives" Letter	6-153
Electroplating Magnesium and Its Alloys	7-47-48
Metal Cleaners (R)	7-86-87
Heavy Duty Metal Cleaner (R)	7-87
Tungsten Carbide Nozzle for Spraying Abrasive Liquids (R)	7-88
Improved Cleaner (M)	7-96
Cleaning and Surface Treatment of Ferrous Metals Before Painting (M)	7-98
Detergent Briquette (P)	8-76 and 10-94, 107-108
Metal Cleaning Composition (P)	8-76
Reduction of Foaming in an Aqueous Bath Containing Foam Inducing Constituents (P)	8-78
Removing Lime Scale from Heating Coils (R)	8-84-85
Blast Cleaning (M)	8-98
Metal Cleaning (M)	8-98, 99-100
Surface Active Agents (M)	8-98-99
High Production Galvanizing of Small Parts Cleaning of Metals (P)	9-63
Treating Articles in a Liquid Bath (P)	9-80
New Combination Alkali-Emulsion Cleaner (R)	9-81
New Pressure Washer Utilizes Cold Steam Principle (R)	9-86
Metal Cleaning Detergents (M)	9-103
Aluminum Cleaning Methods	10-75-80, 125
Analysis of Cleaners (S)	10-90
Cleaning and Electroplating Process (P)	10-92
Cleaning and Polishing Composition (P)	10-92
Apparatus for Cleaning Articles and the Like by Liquid Dip Agitation (P)	10-94
New Cleaner for Automotive and Aircraft Uses (R)	10-98
New Techniques for the Finishing of Aluminum and Its Alloys (R)	10-105-106
Cleaning Brass Prior to Electroplating (R)	10-107
Selecting a Washing Machine (M)	10-127-128
New Booklet on Metal-Clean Solvents (M)	10-129
Blast Cleaning Gun (R)	11-90
Additions to H-VW-M Cleaner Line (R)	11-93-94
Hydride Metal Cleaning (P)	12-80

Sandblast Nozzle Control (P)	12-80
Shot Blasting Machine (P)	12-80
Cleaning Enamelled Copper (S)	12-78

COLORS SURFACE TREATMENTS

Coloring Stainless Steels (P)	2-80
Black Finish on Zinc and Cadmium (R)	2-87-88
Black Finish for Stainless Steel (S)	3-84
Blue Finish for Steel (S)	4-83
Black Coating for Nickel Silver (S)	4-83
Fabricating and Finishing Stainless Steel	6-103-107
Oxidizing Silver Plated Parts (S)	6-111
Coloring Metal Surfaces (P)	6-114
Black Finish on Soldered Brass Parts (S)	7-73
Brown Color on Brass (S)	7-73
Coloring Steel Yellow and Black (S)	9-75
Blackening of Silver (S)	9-75
Color Plating (S)	10-89
The Relation of Finishing to Design, Materials, and Processing Methods	11-66-67
Chemical Anodizing of Aluminum (S)	11-82
Method of Forming Silver Sulfide Coatings (P)	11-86
Coloring and Blackening Metals (M)	11-103-104

COLOR BUFFING—See Polishing.

COPPER PLATING

Anodes—Part I	3-70-74
Removing Organic Impurities from Copper-Cyanide Electroplating Baths (P)	4-86
Method of Electrodepositing Copper and Baths and Composition Thereof (P)	5-84
Electroplating Magnesium and Its Alloys	7-48
Plating to Withstand Temperatures (S)	8-73
Brown Spots from Copper Plating (S)	8-73
Rough Copper Deposits (S)	9-76
Chromate Contamination in Copper Baths (S)	10-90
Copper Plating (Data Sheet)	10-91
Cleaning and Electroplating Process (P)	10-92
Plating in the Recording Industry	11-54-56
Copper Coating Stainless Steel (P)	11-86
Copper Plating (Acid) (S)	12-78

CORROSION RESISTANCE

Treatment of Ferrous Metals to Improve Resistance to Rusting (P)	2-80
Transparent Oxide Coat on Aluminum (R)	2-95
Rust Inhibiting Oil Composition (P)	3-86
Anodizing Iron Group Metals in Lead Sulfamate Bath	3-88
Mineral Oil Rust Proofing Composition (P)	3-88
Corrosion Inhibitors (P)	4-85-86
Corrosion Preventative Compositions (P)	4-86
Magnesium Rod for Water Tank Corrosion Prevention (R)	4-94-95
Rust Preventative (R)	4-96-97
Metal Surface Treatment (P)	5-82
Removing Rust from Machinery (S)	6-111
Report on Special Protective Oil (M)	6-150
Corrosion Preventatives (M)	6-150
Method and Means for Providing Cathodic Protection of Metallic Structures (P)	7-78
New Water Soluble Cutting Oil (R)	7-80-81
Rust Preventative Compound (M)	7-99
Galvanic Corrosion (M)	7-99
Water Emulsion Wax for Rust Prevention (R)	8-83
New Data on Corrosion Resistant Alloys (M)	8-83
Rust Preventative Hydrocarbon Compositions (P)	9-78
An Introduction to Metallic Corrosion (B)	9-98
Chemical and Electroplated Finishes (B)	9-100-101
Corrosion Resistant Coating for Wood Tanks and Floors (M)	9-104
Rust Prevention of Pickled Parts (S)	10-89-90
Rust-Preventative Composition (P)	10-92
Method of Improving the Corrosion Resistance of Chromium Alloys (P)	10-92
Plastic Rust-Proofing Coating in Self-Spraying Container (R)	10-103-104
Galvanic Coating Process (P)	11-84
Preventing Staining After Plating (R)	11-92-93
Anti-Tarnish Protection (M)	11-106-107

COSTS

Reducing Hidden Costs Through Labor Relations	4-73-75
Determining Barrel Plating Costs	10-81-84
The Relation of Finishing to Design Materials and Processing Methods	11-62
Price Guide for Plating and Polishing Supplies (M)	11-104
Baker Chemical Price Lists (M)	11-106

DEGREASING

Metal Cleaning Solvents (M)	2-109-110
Vapor Degreasing (Data Sheet)	4-88
Electrically Heated Vapor Degreaser (R)	4-92-93
Solvents for Degreasing Iron and Aluminum (P)	6-114 and 7-78 and 8-78
Degreasing Apparatus (P)	8-78
Plating and Finishing Equipment (M)	8-99
Hand Operated Degreaser with Quick Conversion Heating (R)	11-88-89
Stainless Steel Degreaser (R)	11-90-91

DESCALING—See Pickling

DIE CASTINGS

Plating on Aluminum-Zinc Die Castings	1-114
The Plating of Zinc Alloy Die Castings (B)	4-107 and 9-98, 100
Composite Finishing of Die Castings (S)	6-112
Brown Spots from Copper Plating (S)	8-73
Silver Plating Zinc Die-Castings (S)	11-83

DRAG OUT—See Fluid Mechanics

DRYING

Drying Small Parts (R)	1-95
"Kube-Kut" Sawdust (R)	2-85-86
Drying and Sawdust Barrels (M)	4-108
Water Displacing Solvent (R)	7-84
Water Dispersing Agent (R)	8-83-84
Plating and Finishing Equipment (M)	8-99

ELECTROCHEMISTRY

The Cyanide Content	1-61-62, 65
Chemistry for the Executive (B)	5-110-111
The Hydrogen Ion	6-85-89, 152
Journal of the Electrochemical Society, No. 3, Vol. 93 (B)	6-137
Process for Preparing Potassium Stannate (P)	7-78
Inco Issues New Bulletin on Galvanic Corrosion (M)	7-99
Phosphatizing of Metallic Surfaces	8-62
Electroplating Calculations (Data Sheet)	8-75
An Introduction to Metallic Corrosion (B)	9-98
Galvanic Coating Process (P)	11-84

ELECTROCLEANING—See Cleaning

ELECTROFORMING

Nickel Plating (Data Sheet)	2-83
Method of Electroforming of Metals (P)	3-88
Annual Proceedings of the A.E.S. (B)	6-139
Plating in the Recording Industry	11-52-60
Heavy Nickel Deposition as a Manufacturing Operation	11-76-81

ELECTROPOLISHING

Electropolishing Lead (S)	1-86
Electropolishing—A Survey. Part I	2-71-77
Conclusion	4-76-82
Journal of the Electrodepositors Technical Society, Vol. 21, 1945-46 (B)	2-107-108
Gassing in Electropolishing (S)	4-83
Electrolyte and Method for Anodically Polishing Nickel (P)	4-85
Phosphoric-Nitric Acid Electropolishing Baths (S)	5-80
Electropolishing Silver Plate (S)	5-80
Finishing Brass Castings (S)	8-74
Continuous Method of Electropolishing Nickel and Nickel-Containing Alloys (P)	8-76
Electropolishing Silver (S)	9-76
Electrolytic Polishing of Stainless Steels (P)	9-78
New Techniques for the Finishing of Aluminum and Its Alloys (R)	10-105-106
Bright Silver Plated Ornamental Work (S)	11-83
Electrolytic Polishing and Bright Plating of Metals (B)	11-113-114
Electropolishing of Brass	12-72

ETCHING—See Pickling

FILTERS AND PUMPS

Corrosion Resistant Gearless Pumps (R)	2-94
Corrosion Resistant Equipment (R)	3-92
Larger Porous Stainless Steel Filter Sheets (R)	3-94-95
Filtering Supplies and Equipment (R)	4-94
In-Line Filters with Porous Stainless Steel Filter-Elements (R)	4-97
Compact High Capacity Filters (R)	5-86
Nylon Anode Bags and Filter Cloths (R)	5-86
Theory and Practice of Filtration (B)	5-111
Filter Unit for Small Plating Baths (R)	6-118-119
Mercury Pressure Filters (R)	6-121
Complete Industrial Filtering Units (R)	6-125
Pressure Pump for Spray Polishing (R)	7-82-83
Continuous Filter for Neutralized Waste Pickle Liquors (R)	8-86-87
New Data on Corrosion Resistant Alloys (M)	8-99
High Pressure Filter Units (R)	9-87
New Drum Pump for Volatile Liquids (R)	9-88
Corrosion-Proof Vacuum Pump (R)	10-95
Filters for Highly Corrosive Solutions (R)	10-97-98
Small Portable Filtering Unit (R)	11-91-92
Corrosives Handling Pump Service (M)	11-104

FIRST AID—See Safety Methods

FLUID MECHANICS

Fluid Mechanics: Forgotten Factor in Electroplating	Part II 1-63-67
Part III	7-55-59, 72
Part IV	9-52-58
Wetting Agents and Surface Active Agents (M)	1-103
Surface Active Agents (M)	8-98-99 and 11-106

GALVANIZING AND TINNING

Tin Coatings on Metals	1-68-71
Immersion Tin Coatings (S)	1-87
Hot Dip Galvanizing Practice (B)	4-106-107
Immersion Tin Deposits on Copper (S)	6-111
High Production Galvanizing of Small Parts	9-62-63, 67
Method of Descaling and Coating Hot Rolled Ferrous Metal (P)	9-78, 80
Plating Sheet Metal (P)	12-80

GENERATORS—See Power, Sources of

GOLD PLATING

Chemicals for Lilac Gold Solutions (S)	2-78
Medium Red Gold Deposits (S)	2-78
Plating Metallic Mesh Handbags (S)	5-81
Hard Gold Plating (S)	7-74
Indium-Gold Article and Method (P)	8-76

GRINDING—See also Polishing

Holder for Abrasive Materials (P)	1-90
Grinding Apparatus (P)	1-90
Contour Grinding (M)	1-102-103
Abrasive Belt Polishing Machine (P)	2-80
Abrasive Head (P)	2-82
Bench Grinder (R)	2-86-87
Multiple Spindle Grinding and Polishing Machine (R)	2-91
Coated Abrasive Article and Method of Manufacturing the Same (P)	3-86
Expanding Head for Abrasives (P)	3-88
Abrasive Belt Grinding Device (P)	4-85
New Abrasive Belt Head for Packer-Matics (R)	4-91-92
Flexible Shaft Grinder and Sander (R)	4-97
Movie on Abrasive Belt Polishing Available for Instruction (R)	4-98
Sanding Disc Backing Pad (R)	6-125-126
Pneumatic Vertical Hand Grinder (R)	6-126
Converting Grinder to Backstand Sander (R)	6-127
Disc Cement (R)	6-128
Idle Backstands for Belt Finishing (M)	6-148
Grinders and Buffers (M)	6-150
Catalog of Abrasive Belt Machines (M)	6-150
Abrasive Wheel Casing (P)	7-78
Contact Wheel for Belt Polishing (R)	7-79
Polishing Wheel Cement (R)	7-79
Grinding and Polishing Machine (M)	7-96-97
Felt Polishing Wheels and Bobs (M)	7-97
Belt Sanders and Polishers (M)	7-98
Precision Table for Belt Grinder (R)	9-83
24" Disc Grinder (R)	9-87-88
Abrasive Disc Holder (P)	10-92
Rotary Automatic Polisher (R)	10-96-97
Heat Resistant Abrasive Belts (R)	10-99-100
Abrasive Belts (R)	10-102
Joint for Abrasive Belts or Bands (P)	11-86
Automatic Abrasive Belt Polisher and Grinder for Flat Stock (R)	11-88
Contact Wheel for Heavy Grinding (R)	11-89-90
Portable Electric Disc Grinder (R)	11-90

HANDLING EQUIPMENT

Rubberized Work Gloves (R)	4-91
Magnetic Separator (R)	4-97
New Unbreakable Acid Pail (R)	5-88
All Steel Storage Bin (R)	5-89
New Electric Unit for Pumping Acids (R)	5-91
Packaging of Lime Finishing Compound (S)	6-112
Protecting Device for Industrial Gloves (P)	6-114
Heavy Duty Plastic Coatings (R)	6-123-124
Carboy Truck (R)	7-82
New "Twin Barrel Lifter" (R)	7-85-86
Safety Hand Truck (R)	7-88
Reinforced Asbestos Gloves (R)	7-88
Work Carrier for Electroplating (P)	8-76
Insulated Cover for Bus Bars (P)	8-76-78
Insulated Dipping Baskets (R)	8-80-81
Rotary Magnets for Floor, Tank and General Uses (R)	8-88
General Purpose Hand Truck (R)	8-88-89
Rubber-Coated Gloves for Women's Hands (R)	9-86-87
Universal Type Wrench for Steel Drums (R)	10-101
Improved G-S Acid Pump for Hand or Foot Operation (R)	10-104-105
Steel Work Bench (R)	11-90
Anti-Tarnish Protection (M)	11-106-107
Electroplating Apparatus (P)	12-80

HEATING METHODS AND EQUIPMENT

Corrosion Resistant Heat Exchangers (R)	1-95
Low-Cost Gas Generator (R)	2-95
Corrosion Resistant Equipment (R)	3-92
Indirectly Heated Dispensing Tanks (R)	3-92-93
Thermocouple and Pyrometer Accessories (M)	3-111
Photoelectric Combustion Safeguard (R)	4-94
High Temperature Tarnish Resistant Finish (S)	5-80-81
Steam and Water Mixer Catalog (M)	5-98
Tank Heat Transfer Coils (R)	6-119-120
Heating Devices for Corrosive Chemical Solutions (R)	7-79-80
Removing Lime Scale from Heating Coils (R)	8-84-85
Automatic Electric Immersion Heater (R)	10-106-107

HISTORY OF PLATING

All Our Yesterdays	1-81-85; 9-64-67; 12-52
--------------------	-------------------------

IMMERSION PLATING

Nickel Plating by Immersion (S)	2-78
Process of Coating Metal Articles (P)	5-84
Immersion Tin Deposits on Copper (S)	6-111
Method of Protecting the Surface of Articles Formed from a Magnesium Alloy (P)	7-78
Process of Copper Coating Stainless Steel (P)	11-80

INDIUM PLATING

Plating and Airlines Efficiency	6-91
Journal of the Electrochemical Society, No. 3, Vol. 93 (B)	6-137
Indium-Gold Article and Method (P)	8-76
Indium Plating (P)	8-78

INHIBITORS

Steel Surface Conditioners (R)	2-84
New Odorless, Clean Inhibitor for Sulfuric and Hydrochloric Acid (R)	2-90
Corrosion Inhibitors (P)	4-85 and 4-86

INSTRUMENTS, INDUSTRIAL—See also Testing

Laboratory Tests and Equipment	2-54-55
Radiation Pyrometer (R)	2-89-90
Thermocouple and Pyrometer Accessories (M)	3-111
Process Control Timer (R)	5-90-91
Atlas to Market New Weather-Testing Unit (R)	6-122
Electroplating Timer (R)	6-124
Electronic Temperature Controller (R)	6-126-127
Temperature Controller and Indicator (R)	6-127-128
Electronic Interval Timer (R)	7-85
General Purpose Level Control (R)	7-86
Design of Plating Range Cells	9-59-61
Handbook on Industrial Instrumentation (M)	9-103
Electronic Control Instruments (M)	11-106

LEAD PLATING

Anodes—Part II	4-64-65
Plating and Airlines Efficiency	6-91
Terne Plating Bath (P)	12-80

MAGNESIUM

Chemical Surface Treatments for Magnesium (Data Sheet)	1-91
Electrolytic Method for Producing Magnesium Alloys (P)	1-90
Process for Electrolytically Zinc Plating Magnesium and Magnesium Base Alloys (P)	6-116
Plating on Magnesium (R)	6-122-123
Electroplating Magnesium and Its Alloys	7-46-49, 100
Method of Protecting the Surface of an Article Formed from a Magnesium Alloy (P)	7-78

METALLIZING

Conductive Coatings on Glass (P)	1-88
Method of Spraying a Temporary Protective Coating (P)	1-90
Metallizing Nonmetallic Bodies (P)	2-80
Metallizing Baby Shoes (S)	3-84 and 8-74
Process of Evaporating Metals (P)	3-86, 88
Deposition of Metal on Glass from Metal Formates (P)	3-88
Preparing Wax Models for Electroplating (S)	5-80
Plating Dentures (S)	5-81
Production of Metallic Design on Nonmetallic Materials (P)	5-84
High Vacua-Principles, Production and Measurement (B)	7-101
The Formation of Copper Films on Non-Conductors—A Survey	8-58-60, 69
Process for Making Front-Surface Mirrors (P)	9-80
Metal Plating on Non-Conductors	10-60-66, 74
Metallizing Picture Frames (S)	10-90
Process of Producing Predetermined Metallic Patterns (P)	10-94
Method of Silvering Surfaces (P)	10-94
Depositing Metals by Thermal Evaporation in a Vacuum (P)	10-108
Process for Metallizing Non-Metallic Articles (P)	10-108
Plating in the Recording Industry	11-52-54
Silvering Plastics by Spraying (S)	11-82
Method of Producing Mirrors by Chemical Deposition (P)	11-84
Process for Metallizing Non-Metallic Articles (P)	11-86
Plating on Leather (S)	12-78

METALS, MISC.

Buying Uranium Salts (S)	2-79
Manufacture of Nickel and Cobalt Salts (P)	2-80
The Facts About Beryllium Alloys	3-53
Process of Hot Coating Metal Strip (P)	3-88
Electrolytic Production of Thin Metal Foil (P)	4-85
Heat Resistant Nickel Alloys (P)	4-82
Precision Investment Castings (B)	5-112
Production of Active Carbon (P)	6-116
Methods of Plating Contact Surfaces on Magnetic Reeds (P)	7-76
Chrome-Faced Piston Ring (R)	7-87-88

Method of Electrowinning Manganese (P)	7-94
Fabricating Semi-Precious Metals (M)	7-99
Electroplating Method and Electrolyte (P)	10-94
The Relation of Finishing to Design, Materials and Processing Methods	11-61-67, 81
Apparatus for Coating Metal Sheets (P)	11-84
Electropolishing and Bright Plating of Metals (B)	11-113-114

NICKEL PLATING

Electroplating Nickel (P)	1-88
Laboratory Tests and Equipment	2-52-53
Nickel Plating by Immersion (S)	2-78
Nickel Plating (Data Sheet)	2-83
Nickel Anodes (S)	4-83
Soft Nickel Deposits (S)	4-84
Anodes—Part III	5-74-79
Acid Chloride-Fluoride Bath for Nickel Plating (P)	6-114
New Acid Agent for Bright Nickel Plating (R)	6-117
Bright Nickel Plating (M)	6-147
Guide to Bright Nickel Plating (M)	6-148
Barrel Nickel Plating (S)	7-74
Nickel Plating with Insoluble Anodes (S)	7-74
Plating to Withstand Temperatures (S)	8-73
Practical Nickel Plating (M)	8-99
Removing Magnetism from Nickel Plating (S)	9-75-76
Recovery of Nickel from Idle Nickel Electroplating Baths (P)	9-78 and 9-80
Rectifier for Electrolytic Purification of Nickel Baths (R)	9-81-82
Removal of Zinc from Bright Nickel Baths by Electrolytic Treatment	10-85-89, 129-130
Green Film After Nickel Plating (S)	10-89
Plating in the Recording Industry	11-54
Heavy Nickel Deposition as a Manufacturing Operation	11-76-81
Soft and Hard Nickel Deposits (S)	11-82
Electrolytic Polishing and Bright Plating of Metals (B)	11-113-114
Nickel Plating (P)	12-80
Nickel Plating on Carbides (S)	12-78
Heavy Nickel Plating (S)	12-78
Pitting in Nickel Plating (S)	12-78

ORGANIC COATINGS

Removable Plastic Coatings (R)	3-90
Booklet on Adhesives and Coatings (M)	4-109
Plating Wire Fish Traps for Corrosion Resistance (S)	5-80
Process of Forming Plastic Coating Compositions on Surfaces (P)	5-82
Heavy Duty Plastic Coatings (R)	6-123-124
Plating to Eliminate Porosity in Castings (S)	8-73
Corrosion Resistant Coating Material (R)	8-84
Modern Plastics Encyclopedia (B)	9-100
Chemical and Electroplated Finishes (B)	9-100-101
Corrosion Resistant Coating for Wood Tanks and Floors (M)	9-104
Plastic Rust-Proofing Coating in Self Spraying Container (R)	10-103-104

PEELING

Plating on Aluminum-Zinc Die Castings	1-114
The Mechanism of Exfoliation of Electrodeposited Surfaces	7-62-70
Poor Adherence of Chrome over Nickel (S)	9-75

PERIODIC-REVERSE PLATING

Periodic Reverse Plating Electronic Relay (R)	2-84-85
Electroplating Pulse Selector (R)	2-93
Electroplating Method Using Pulsating Current (P)	12-80

pH—See also Testing and Analysis

New Industrial pH Meter (R)	3-91
The Hydrogen Ion	6-85-89, 152
pH Responsive Glass Electrode (P)	10-94
pH Test Papers (R)	10-95

PHOSPHATE COATINGS

Phosphatization of Metallic Surfaces	8-61-69
--------------------------------------	---------

PICKLING

Chemical Surface Treatments for Magnesium (Data Sheet)	1-91
Fabricating and Finishing Stainless Steel Part II	2-59-64
Conclusion	6-108-109
Steel Surface Conditioners (R)	2-84
Spray Eliminator for Pickling (R)	3-94
Method of Roughening the Surface of Various Elements (P)	4-85
Treatment of Pickle Liquor (P)	4-86
Over Etching Parts Before Plating (S)	5-81
Dry Pickling Agent (M)	5-98-99
Electrolytic Pickling	6-95-102
Acid Dipping Before Chrome Plating (S)	6-112
New Acid Agent for Bright Nickel Plating (R)	6-117
Removing Heat Treat Scale from Stainless Steel (S)	9-76
Method of Descaling and Coating Hot-Rolled Ferrous Metal (P)	9-78, 80
Aluminum Cleaning Methods	10-78-79, 80

Dipping After Electrocleaning (S)	10-89
Rust Prevention of Pickled Parts (S)	10-89-90
Hydride Metal Cleaning (P)	12-80

PIPING AND FITTINGS

Spray Nozzle (P)	1-88
Corrosion Resistant "Y" and Angle Valves (M)	1-101
Threadless Malleable Pipe Fittings (R)	2-96
Selecting Steam Traps (M)	2-109
Corrosion Resistant Equipment (R)	3-92
Manhattan Rubber Issues New Catalogue (M)	3-110-111
Rust-Proof Hose Ball Valve (R)	4-95
Metered Spraying Device for Mixed Liquids (P)	5-84
Flexible Metal Tubing (M)	6-147-148
Tungsten Carbide Nozzle for Spraying Abrasive Liquids (R)	7-88
Couplings for Flexible Tubing (R)	8-89
New Data on Corrosion Resistant Alloys (M)	8-99
Bulletin on Metal Slings (M)	10-128
Karbate Pipe and Fittings Catalog (M)	11-107

PITTING—See also Peeling

Fluid Mechanics—Part II	1-66-67
The Mechanics of Exfoliation of Electrodeposited Surfaces	7-66
Pitting in Nickel Plating (S)	12-78

PLANT PRODUCTION METHODS

Finishing Small Electric Appliances	1-78-80
Plating and Airlines Efficiency	6-90-94, 109
High Production Galvanizing of Small Parts	9-62-63, 67
Chemical and Electroplated Finishes (B)	9-100-101
Heavy Nickel Deposition as a Manufacturing Operation	11-76-81
Plating in a Railway Shop	12-60

PLASTICS—See Organic Coatings and Metallizing

POLARIZATION—See Testing and Anodes

POLISHING

Automatic Buffing Machines (R)	1-93
Water Soluble Buffing Compounds (R)	1-95
Multiple Spindle Grinding and Polishing Machine (R)	2-91
Catalog on Presto Buffs (M)	2-106
Booklet on Injury to Ground Surfaces (M)	2-110
Fabricating and Finishing Stainless Steel—Part III	3-62-67
Refinishing Stainless Steel Sheets (S)	3-85
High Speed Polishing Lathes (S)	3-85
Steel Wire Tufts for Satin Finish Hanger Brushes (R)	3-90
Wire and Tampico Brushes (R)	3-91-92
Polishing Discs and Bonnets (R)	3-93
Polishing Speed Lathe (R)	3-99
Divine Bros. Issues New Bulletin (M)	3-111
Refinishing Old Silverware (S)	4-84
Large-Overhang Buffing Machine (R)	4-89
Contact Wheel for Belt Polishing (R)	4-90
Tampico Wheels and Platers Brushes (R)	4-99
Buffing and Coloring Compounds (M)	4-108
Buff Cloth Samples (M)	4-109
Buffing and Polishing Machine (P)	5-84
Improved Polishing Lathes (P)	5-86-87
Sheepskin Discs and Wheels (M)	5-99
Packaging of Lime Finishing Compounds (S)	6-112
Buffing Machine (P)	6-114
Buffing Compound (P)	6-116
Buffing and Polishing Machine (R)	6-117
Polishing and Grinding Machines (M)	6-147
Surface Finishing Automobile Moldings	7-60-61
Wheel Speeds for Polishing and Buffing (Data Sheet)	7-75
Pressure Pump for Spray Polishing (R)	7-82-83
Buffing or Polishing Machine (P)	9-80
Color Buffing Compositions (R)	9-81
Hydraulic Polisher and Glazing Machine (R)	9-82
Low-Speed Buffing Lathe (R)	10-95
Ultra-Fine Alumina Powders (R)	10-105
New Technique for the Finishing of Aluminum and Its Alloys (R)	10-105-106
Hardware Finishes (S)	11-82-83
Buffing and Polishing Wheels and Compounds (M)	11-104
Buffing and Polishing Wheels (M)	11-104-105
Buffing Wheel (P)	12-80

POROSITY—See also Pitting

Laboratory Tests and Equipment—Conclusion	3-79-80
---	---------

POWER SUPPLIES

Selenium Rectifier (R)	1-92, 93
Large Capacity Selenium Rectifier (R)	1-94
12 Volt Rectifier for Barrel Plating (R)	1-96, 97
Rectifiers for Electroplating—Part V	3-57-61
Rectifiers for Electroplating—Part VI	4-67-72
D. C. Rectifier (R)	3-95-96
New 36 Position Tap Switch on Selenium Rectifier Line (R)	3-98-99
9 Volt Rectifier (R)	3-99
Selenium Rectifiers (M)	3-112

D. C. Power Supply (S)	4-84
High Voltage Selenium Rectifier (R)	4-89
Heavy-Duty Selenium Rectifier Cells (R)	4-93-94
Modern Plating Generators	5-57-63
Rectifiers and Controls (M)	5-99
Selenium Rectifiers (P)	6-116
2 Volt-5000 Ampere Rectifier (R)	6-120
Alternating Current Generators (M)	7-97
Low-Cost Vari-Plater (R)	8-79
Heavy Duty Selenium Rectifier Stack (R)	8-81
Rectifier for Plating Jewelry and Other Small Parts (R)	8-86
Portable Silver Plater (R)	8-86
Selenium Rectifiers (M)	8-99
Rectifier for Electrolytic Purification of Nickel Baths (R)	9-81-82
Heavy Duty Industrial Rectifiers (R)	9-84-85
Selenium Rectifiers (M)	9-102
Brush Holder (P)	10-92
D. C. Power Supplies for Laboratory Use (R)	10-95-96
New Motor-Generator Catalog (M)	10-127
Selenium Rectifiers (M)	10-127
Motor and Generator Brush Standardization Booklet (M)	11-107-108

RACKS

Improved Wrap-Rax Tape (R)	1-93
Removable Plating Rack Tips (R)	4-89
Plastic Tape for Plating Racks (R)	4-89-90
Small Parts Holder (P)	5-84
Pressure Molding Rack Coatings (R)	6-117
Single Dip Rack Coating (R)	6-126
Broadway Rubber Expands Surface Treating Facilities (R)	7-83
New Chemical Resisting Tape (R)	8-79
Liquid Plastic Plating Rack Coating (R)	8-79-80
Plating Metallic Mesh Handbags (S)	5-81
Electroplating Apparatus (P)	12-
Using Magnetic Materials for Plating Racks (S)	8-73
Electroplating Rack (P)	8-76
New Rack Coating Tape (R)	8-81-82
Designing Auxiliary Anodes for Chrome Plating (S)	9-75
New Bulletin on Plating Racks (M)	9-102

RECOVERY AND PURIFICATION METHODS

Treatment of Dross for the Recovery of Zinc (P)	3-86
Method of Breaking Petroleum Emulsions (P)	4-86
Removing Organic Impurities from Copper-Cyanide Electroplating Baths (P)	4-86
Treatment of Pickle Liquor (P)	4-86
Recovering Metals from Dummy Cathodes (S)	6-111-112
Method of Regenerating Anodizing Baths (P)	7-78
Treatment of Iron Sulfate Liquors (P)	8-78
Continuous Filter for Neutralizing Waste Pickle Liquors (R)	8-86-87
"Salvage of Metals from Dummy Cathodes" Letter	8-100
Recovery of Nickel from Idle Nickel Electroplating Baths (P)	9-78 and 9-80
Removal of Zinc from Bright Nickel Baths by Electrolytic Treatment	10-85-89, 129-130
Chrome Contamination in Copper Baths (S)	10-90

RECTIFIERS—See Power, Sources of

RHODIUM PLATING

Stripping of Rhodium Plating	2-56-58
Stripping Rhodium from Nickel Plated Articles (S)	7-73

RUBBER

Laboratory Apron (M)	2-110
Rubberized Work Gloves (R)	4-91
New Unbreakable Acid Pail (R)	5-88
Broadway Rubber Expands Surface Treating Facilities (R)	7-83
Insulated Dipping Baskets (R)	8-80-81
Rubber Mats for Lessening Worker Fatigue (R)	8-87-88
Rubber Insulated Wire for Resistance to Water (R)	9-86
Rubber-Coated Gloves for Women's Hands (R)	9-86-87
Booklet on Hard Rubber Products and Uses (M)	10-127
Protective Clothing (M)	10-129

SAFETY, PROCEDURES AND EQUIPMENT

Safety Goggles (R)	2-90-91
Adhesive Gauze Tape for Workers Fingers (R)	2-93
Laboratory Apron (M)	2-110
The Facts about Beryllium Alloys	3-53
Plating Room Health Hazards (Data Sheet)	3-89
"Warning on Perchloric Acid" Letter	3-120
Rubberized Work Gloves (R)	4-91
Photoelectric Combustion Safeguard (R)	4-94
Detecting Combustible Gases or Vapors (R)	4-98
Portable Carbon Monoxide Tester (R)	4-98-99
M.S.A. Coolband Provides Working Comfort for Hot Jobs (R)	5-90

New Safety Directory Published (B)	5-111-112
Protecting Device for Industrial Gloves (P)	6-114
Finger Cot (P)	7-78
Powdered Hand Cleaner (R)	7-80 and 11-92
New Germicide for Equipment Sanitation (R)	7-81-82
Prevention of Heat Fatigue (R)	7-84
Safety Hand Truck (R)	7-88
Reinforced Asbestos Gloves (R)	7-88
Rubber Mats for Lessening Worker Fatigue (R)	8-87-88
Safety Floor Finish to Prevent Slipping (R)	9-82
Hard Floor Fatigue and Slippery Floor Hazards Eliminated (R)	9-83-84
Electric Airtowel for Drying Hands (R)	9-84
Rubber Insulated Wire for Resistance to Water (R)	9-86
Rubber-Coated Gloves for Women's Hands (R)	9-86-87
Protection for Industrial Workers (M)	9-103
Antiseptic Coated Metals (R)	10-104
Protective Clothing (M)	10-129

SELENIUM PLATING

Methods of Protecting the Surface of Articles from a Magnesium Alloy (P)	7-78
--	------

SILVER PLATING

Using Silver Nitrate in Baths (S)	1-87
Rust Spots Through Silver Plate (S)	2-78
Formation of a Strong Bond Between a Ferrous Metal and an Electrodeposit of Silver (P)	2-82
Silver Plating on Aluminum (S)	3-84
Black Anodes in Silver Plating (S)	3-84
Maintaining Copper in Silver Strike (S)	3-85
Electrodeposition of Silver from a High Silver Cyanide Content Bath (P)	6-116
Bright Silver Plating (R)	6-121-122
Bright Silver Plating (S)	7-73
Making Up Silver Solutions (S)	7-74
Preparation of Silver Foil (P)	7-94
Electroplating Bath for Silver (P)	8-76
Anode Areas in Silver Plating (S)	11-82
Silver Plating Zinc Die Castings	11-83
Bright Silver Plated Ornamental Work (S)	11-83
Silver Cyanide (R)	11-92
Silver Plating (P)	12-80
Silver Plating (S)	1-86
Stripping Silver from Copper Alloys (S)	12-78
Refinishing Old Silverware (S)	12-78

STAINLESS STEEL

Fabricating and Finishing Stainless Steel—Part I	1-72-77
Part II	2-59-64
Part III	3-62-67
Part IV	5-64-68
Conclusion	6-103-109
Hard Chrome on Stainless Steel (S)	1-86
Silver Plating on Stainless Steel (S)	1-87
Coloring Stainless Steel (P)	2-80
Black Finish on Stainless Steel (S)	3-84
Refinishing Stainless Steel Sheets (S)	3-85
Forming of Austenitic Stainless Steels (B)	6-137-139
Fabricating Semi-Precious Metals (M)	7-99
High Alloy Stainless Steel for Handling Sulfuric Acid (M)	8-97
Removing Heat Treat Scale from Stainless Steel (S)	9-76
Electrolytic Polishing of Stainless Steels (P)	9-78
Process of Copper Coating Stainless Steel (P)	11-86

STANDARDS

Standard Hardware Finishes (S)	1-86, 87
Standard Solutions (S)	2-79
A.S.T.M. Standards on Soaps and Other Detergents (B)	3-118
Standard Solutions for Test Work (S)	4-83-84
Specifications for Electroplated Metals (Data Sheet)	5-85
Index to 1947 A.S.T.M. Standards (B)	10-129
"Throwing Power" Letter	10-129
Hardware Finishes (S)	11-82-83
Motor and Generator Brush Standardization Booklet (M)	11-107-108
Plating Specifications (S)	12-78

STOP-OFFS

Improved Wrap-Rax Tape (R)	1-93
Removable Plastic Coating (R)	3-90
Plastic Tape for Plating Racks (R)	4-89-90
Composite Finishing of Die Castings (S)	6-112
Stop-Off for Selective Tin Plating (R)	6-123 and 8-85-86
New Chemical Resisting Tape (R)	8-79
New Rack Coating Tape (R)	8-81-82

STRIPPING

Stripping of Rhodium Plating	2-56-58
Stripping Copper from Zinc Die Castings (S)	4-83
Eth Lines on Copper Printing Rolls (S)	5-81
Stripping Rolled Gold Plate (S)	6-111
Electroplating Magnesium and Its Alloys	7-49
Stripping Rhodium from Nickel Plated Articles (S)	7-73
Metalworking and Stripping Plating Process (P)	7-78

Stripping Copper Stop-Off from Carburized Parts (S)	10-89
Stripping Excess Soft Solder from Joints (S)	10-89
Stripping Silver from Copper Alloys (S)	12-78

TANKS

Solid Glass Blocks (R)	2-84
Stainless Steel Tank Linings (S)	3-84
Manhattan Rubber Issues New Catalogue (M)	3-110-111
"Removing Asphalt Paint from Rubber Lined Tanks" Letter	3-120
Stainless Steel Plating Tanks (S)	4-83
Tanks for Gold Plating (S)	4-83
Magnesium Rod for Water Tank Corrosion Prevention (R)	4-94-95
Hi-Temperature Lucite Plating Tanks (R)	6-118
Tank Heat Transfer Coils (R)	6-119-120
Heavy Duty Plastic Coatings (R)	6-123-124
Plating Tank Liners (S)	7-73
Enclosed Electroplating Tank (P)	7-76
Broadway Rubber Expands Surface Treating Facilities (R)	7-83
General Purpose Level Control (R)	7-86
Insulating Cover for Bus Bars (P)	7-76, 78
High Alloy Stainless Steels for Handling Sulfuric Acid (M)	8-97
Plating and Finishing Equipment (M)	8-99
Tank Linings for Hydrofluoric Acid Baths (S)	9-75
Corrosion Resistant Coating for Wood Tanks and Floors (M)	9-104
Tank Linings (S)	11-82

TESTING—See also Analysis.

Laboratory Tests and Equipment—	
Part I	2-50-55
Conclusion	3-76-83
Apparatus for Forming Samples of Electrolytic Tin Plate (P)	2-82
Temperature and Humidity Unit (R)	9-92
Dewpoint Apparatus (R)	2-93-94
A.S.T.M. Standards on Soaps and Other Detergents (B)	3-118
Corrosion Tester Measures Polarization (R)	4-96
Detecting Combustible Gases or Vapors (R)	4-98
Portable Carbon Monoxide Tester (R)	4-98-99
Modern Electroplating Laboratory for Development and Pilot Plant Studies	5-52-56
Measurement of Thickness of Oxide Coatings on Aluminum Alloys	5-69-73
Plating and Airlines Efficiency	6-94
Fabricating and Finishing Stainless Steel—Conclusion	6-104-105
Atlas to Market New Weather Testing Unit (R)	6-122

D. C. Power Supplies for Laboratory Use (R)	10-95-96
New Plater's Computer (R)	10-100
Pocket-Size Surface Roughness Scales (R)	10-101-102
Thickness Testing of Electroplated Coatings (Data Sheet)	11-87

THROWING POWER—See Testing and Instruments, Industrial.

TIN PLATING

Tin Coatings on Metals	1-68-71
Anodes—Part II	4-64
Tin-Plating Process (P)	4-85
Plating Wire Fish Traps for Corrosion Resistance (S)	5-80
Wiper for Use in Metal Plating Apparatus (P)	6-114, 116
Stop-Off for Selective Tin Plating (R)	6-123 and 8-85-86
Electrolytic Tin Plate (P)	7-76

Tin Plating (P)	12-80
Terne Plating (P)	12-80
Electrodeposition of Tin (P)	12-80

TUMBLING & BARREL FINISHING

Material for Use in Barrel Polishing Operations (P)	1-88, 90
New Roto-Finish Machine (R)	2-84
Tumbling Barrel (R)	3-98
Lupomatic Tumbling Barrel Bulletins (M)	3-110
Barrel Finishing for Mass Production	4-56-60
Magnetic Separator (R)	4-97
New Continuous Wheelabrator Tumbler (R)	5-88-89
Multiple Tumbling Barrels (R)	7-81
Hard Water (S)	8-73
Finishing Brass Castings (S)	8-74
Method of Tumbling Barrel Finishing and Materials (S)	8-76
Wooden Tumbling Barrels (P)	9-78
New Roto-Finish Manual (M)	9-101
Barrel Finishing of Aircraft Parts	10-67-74
Wear Plate for Shot Blast Machines (P)	10-92
Deburring and Separating Barrel (M)	10-94

TUNGSTEN

Tungsten Plating (S)	4-84
Process of Electroplating on Tungsten (P)	11-86

VENTILATION AND EXHAUST SYSTEMS

Air Circulator and Purifier (P)	1-88
Dust and Fume Eliminators (M)	1-102
Dust Collector (P)	2-82
High Capacity Dust Collector Now Available for 25 Cycle Operation (R)	3-94
Utility Fan (R)	3-96
Dust Collector (R)	3-96-97
Adjustable Blade Fan (R)	4-96
Modern Electroplating Laboratory for Development and Pilot Plant Studies	5-53
Tips on Ventilation for Small Solvent Users (B)	6-139-140
Fume Separator (M)	6-149
New Air Recovery Handbook (M)	6-149
New Dust Collector System (M)	6-149
Dust Collector Bulletin (M)	6-151
Low Velocity Dust Collector (R)	7-83-84
Dust Separator (R)	8-82-83
Corrosion Resistant Coating Material (R)	8-84
Exhaust Fans and Blowers (M)	9-102
Fume Separators (R)	10-99
Centri-Merge Arrestor Unit (R)	10-105
New Fan Catalogs Offered (M)	11-105
Bulletin on Dust Collecting (M)	11-108

WASTES, DISPOSAL OF

Plating Waste Disposal (S)	7-73
Continuous Filter for Neutralized Waste Pickle Liquors (R)	8-86-87
A.E.S. Publishes Research Bulletin No. 9 on Plating Waste Disposal (M)	11-106

WATER

Water Demineralizer (M)	1-102
Water Demineralizer (R)	5-87-88
Water Demineralizers (M)	6-151
Demineralization of Water	7-71-72
Hard Water (S)	8-73
Anion Exchange Resins (P)	9-78
Cartridge Water Demineralizer (R)	9-84

WETTING AGENTS—See Fluid Mechanics.

ZINC PLATING

Journal of Electrodepositors Technical Society, Vol. 21, 1945-46	2-107-108
Zinc Anodes (R)	3-90
Anodes—Part II	4-61-63
New Zinc Plating Anode (R)	5-90
Wagner Issues Folder on Zinc Anodes (M)	5-99
Process for Electrolytically Zinc Plating Magnesium and Magnesium Base Alloys (P)	6-116
Zinc Plating Process and Electrolyte (P)	11-86
Electrodeposited Zinc Coatings	12-63

INDEX TO AUTHORS

Albin, Joseph—Cleaning Surfaces By Non-Erosive Blasting	3-54
Plating and Airlines Efficiency	6-90
